

## Canadian Plaques & Markers

### Edge Types, Profiles, Specifications and Standard Sizes

#### 1. Plain Cut

**Sizes:** These do not require special pattern bases, so in principle can be made any size.

Plain Cut Specifications		
R – text, border or flat motif relief	1/16"	1.5mm
D – plaque depth (varies according to plaque size)	1/8" to 1/4"	3mm to 6mm

## 2. Plain Bevel

**Sizes:** These do not require special pattern bases, so in principle can be made any size.

The bevel can be painted or finished (polished), but cannot be textured.

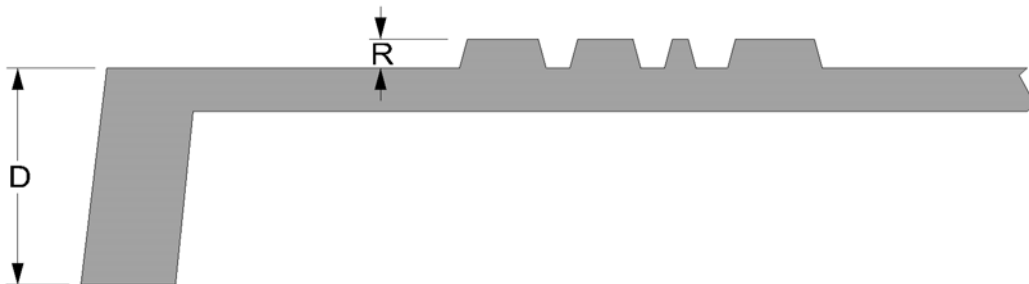

Plain Bevel Specifications		
R – text, border or flat motif relief	1/16"	1.5mm
D – depth (varies according to plaque size)	5/32" to 1/4"	4mm to 6mm
BW – bevel width (approx. equal to plaque thickness)	5/32" to 1/4"	4mm to 6mm

## 3. Straight Edge

Hollow backed plaques/markers that require special pattern bases.

**Sizes:** refer section 5 below.

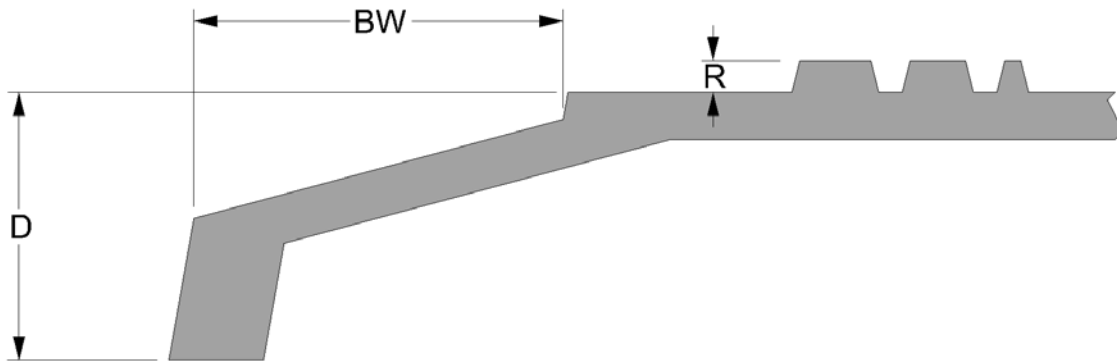

Straight Edge Specifications		
R – text, border or flat motif relief	1/16"	1.5mm
D – depth	19/32"	15mm*

\* note that several sizes of lower profile straight edge plaques are available.

#### 4. Elite Bevel, Rock Edge, Wood Edge

Hollow backed plaques that require special pattern bases. All three types have the same profiles according to plaque size, and the bevel angle is 15°. Please note that the Elite Bevel is only available as painted.

**Sizes:** refer below.

Elite Bevel, Rock and Wood Edge Specifications						
Plaque Size	Small		Medium		Large	
	(shortest side less than 8")		(shortest side between 8" and 12" inclusive)		(both sides greater than 12")	
R – text, border or flat motif relief	1/16"	1.5mm	1/16"	1.5mm	1/16"	1.5mm
D – depth	1/2"	13mm	11/16"	18mm	13/16"	21mm
BW – bevel width	3/4"	19mm	1"	25mm	1-1/2"	38mm

#### 5. Sizes

Standard Sizes - Straight Edge, Elite Bevel, Rock and Wood Edge
16x10, 20x12, 22x10, 22x12, 24x12, 24x14, 24x16, 28x16, 32x13, 44x13, 44x14, 48x18

Non Standard Sizes	
Rock Edge	6x6, 12x8, 16x8, 16x9, 18x10
