

PHOTO PORTRAITS

A photographic portrait can provide a lasting memory. Modern techniques create a high quality durable image that can be fixed permanently to the plaque.

Types

Phoenix can supply two types of photo portraits from a good quality photographic print either in **colour** or **black and white**

Ceramic;

Where the image is reproduced in a glazed, slightly convex, porcelain base
(Please see example on left)

Etched Metal;

Where the image is reproduced on a flat metal base
(Please see example on right)

Shapes

Photo portraits can be supplied as round, oval, rectangular or heart shaped

Sizes

Range from 1" to 6". Most common sizes used range from 2" to 4"

Frames

Photos can be fixed to the plaque without a frame. However, cast or fitted frames can be provided.
(Please see example on right)
