

PLAQUE CODE ORDERING SYSTEM

Phoenix Foundry has developed a code system that captures the main attributes of a plaque. The system helps to ensure that the plaque we deliver is exactly what our customers want in all respects.

This is how the system works

Phoenix currently has in excess of 3000 unique Plaque codes on its database

Plaque Code

A 2 or 3 letter/digit code that uniquely describes the main attributes of the plaque

A9Z

XX

L4

R

380*280

Other key attributes are also encoded as subsidiary to the plaque code

Colour Code

(for example)

- XX Phoenix Brown
- DB Dark Brown
- MC Maroon Claret
- NB Navy Blue

Fixing Code

(for example)

- F1 Flat Back
- L4 Four Lugs
- S1 Horizontal Strap
- C2 Two Screws

Edge Code

(for example)

- C Plain Cut
- R Raised
- P Bevel Painted
- L Bevel Linished
- B Book
- F Elite

Plaque Size

Length (mm) x Height (mm)
